The Original Pancake House Lives Up to Its Name

Restaurants across the nation compete for whose breakfast menus can attract the masses, but as widely-loved as they might be, no corporate chain can compare with the fresh, savory, delicious—and dare I say, original—food menu items that The Original Pancake House franchise has to offer. From their unique trademark pancakes to their delectably mouth-watering omelets, their wide variety of special breakfast items has brought customers in from miles around. Their fan base continues to grow as those customers brag about the

heavenly signature dishes to their friends and family.

The first Original Pancake House location was founded in Portland, Oregon in 1953 by Les Hight and Erma Hueneker. Drawing upon their many years of research throughout the nation, the two have collaborated and have combined the signature ingredients to create unique menu items only found at The Original Pancake House. The secrets are in the ingredients: 93 score butter, pure 36% whipping cream, fresh grade AA eggs, hard wheat unbleached flour, and their own recipe sourdough starter. The Original Pancake House's pancake recipe's popularity has soared from coast to coast, receiving high praise to this very day.

One of the trademark items acclaimed a main attraction is the Apple Pancake, which is a single enormous pancake baked and topped with sautéed

apples and cinnamon sugar. The Dutch Baby, another signature platter, is a golden-baked pancake air-filled and served with lemon, whipped butter and powdered sugar. Or if you're in the mood for the classic thing, you have a wide selection from buttermilk to blueberry to bacon-filled! We guarantee you'll want to come back and try everything, from crepes to omelets to specialty pancakes. The most difficult

thing is picking just one thing to order, and that includes beverages: will you opt for their specially-blended, roasted original coffee or the orange juice which is freshly-squeezed in house every day.

Gordon Manus, owner, operator and general manager of the Chesterfield location, has discovered Philibert Security through various other Original Pancake House establishments and has been a customer since 2007.

"We went with Philibert [Security] because of the good experience we've had with them in the past, and the fact that they're local and much more cost-effective than a nationwide company. Everything from service to prices has been tremendous."

If you would like a breakfast for two on us at the Original Pancake House, simply refer us to a friend. We will send you a \$30 gift certificate if your friend purchases, and take it personally from us, you and your guest will be satisfied, guaranteed.

RESTAURANT THIEF STOPPED BY PHILIBERT SYSTEM

There must be a different brand of burglars out in the world today. Some prefer houses, others specialize in businesses. One area restaurant thief was caught and apprehended after attempting to break into and rob Massa's Restaurant located in Bridgeton after reportedly repeating the same exact process with another Bridgeton restaurant (unfortunately not protected by Philibert.) Apparently more than one district police department had been keeping their eyes peeled for this suspect, for multiple police departments arrived on the scene after the incident.

On the evening of July 13, 2009, the thief heaved a rock through the front window of the Bridgeton Massa's Restaurant and entered through the shattered glass. The sound alerted Philibert's glass break detectors and, needless to say, the monitoring station received the signal and the police were dispatched immediately. The suspect evidently believed he had time enough to get what he needed and vamoose so he headed straight for the cash register. The

apparently inexperienced thief didn't realize that no business leaves the register full during closing hours. The thief broke into the register and found it empty.

With no score, the suspect ran for his vehicle and off down the street and almost literally ran straight into Bridgeton police on their way to the scene. St. Ann police also arrived on the scene right away.

"We had heard that St. Ann was looking for him, too." said Jack Massa, operator and owner of all Massa's Restaurant establishments. "Apparently he used the same method with another restaurant in St. Ann, and who knows how many others."

Massa's Restaurant is known specially for their highly-acclaimed Italian menu. Their extensive menu includes many items, ranging from a delicious artichoke and spinach bake appetizer to their famous Beef Pepe, one of the most attractive items on the menu. Massa's has three locations in the St. Louis area: Bridgeton, Kirkwood and Ellisville.

Services

Changing Phone Services

Have you changed your phone service recently? Or are you thinking about changing it? Please contact us **before switching phone services to make sure your new phone service is compatible with your alarm system.** Sometimes a device must be added to your security system to work with a new service. For more information, call Philibert Security and ask for Kim or Dave.

Hahn Computer Services

Philibert Security has been working with Hahn Computer Services LLC for quite some time, rectifying computer difficulties with both business and home machines. Not everyone realizes this,

but Philibert Security is constantly upgrading software and hardware to keep your information safe from hackers and viruses. Hahn Computer Services works with large and small businesses, repairing computers and increasing security. If you need work done on your home or work computer, we highly recommend you contact them. They are honest and reasonably-priced. Call them at 314-477-8732.

A Recipe From Kathy's Kitchen

RICE PUDDING

- 2 cups of water
- 1/2 cup white rice
- 3 cups milk
- 1/2-3/4 cup sugar
- Cinnamon

Add 2 cups of water and 1/2 cup of rice to large saucepan.

Bring to a boil and cook until water is cooked down (almost gone).

Add 3 cups milk and 1/2 cup of sugar (up to 3/4 cup) and bring to a boil and then simmer until milk is cooked down, about 20-30 minutes.

Pour in bowl (1 1/2" quart dish) and sprinkle with cinnamon.

Refrigerate and enjoy when cool.

Products

WaterCop is an automatic shut-off system equipped with wireless sensors that can be placed throughout the home in areas of concern, bathrooms, near washing machines, dishwashers, etc. You can use manual shut-off switches that can shut the water off by remote control. For a free WaterCop brochure, contact our sales dept. at 314-962-2000 ext. 108.

ATTENTION CUSTOMERS...

Daylight savings time will be ending next month on November 1. Please save this list of steps on how to set the correct time for your keypad. Included are instructions for both DSC and Radionics.

FOR DSC 4000 SERIES: Enter Master Code to bring up sub group, then press 4 to enter the correct time in military format. When done, press # to exit or/then press 5 to change the date. Enter date in 6-digit form (example 10-28-07 for October 28, 2007).

FOR OTHER DSC PANELS: Press *, 6, Master Code, 1, then enter new

time and date in military time along with 6-digit date.

FOR RADIONICS 7212, 7412, 9112, 9412:

This system uses a 12-hour, AM/PM format.
